

Mandatory signs are regulatory signs which advise of instructions that must be carried out.

Most mandatory signs feature a white pictogram within a blue circular disk, together with black wording displayed on a white rectangular background. Some do not include the pictogram and only feature text - these particular signs are always manufactured in portrait format.

Multi-message versions are also available which allow up to four pictograms with a common message.

Our mandatory signs are made to the specifications of AS1319-1994 and are available in a variety of standard sizes. They can be manufactured on metal, polypropylene or corflute material, or can alternatively be supplied on self-adhesive vinyl labels. Aluminium signs are also available upon request.

Standard sizes and materials are listed in the table below each sign, along with the relevant part code. Other sizes are also available upon request, i.e. 600mm x 900mm.

Don't forget we can customise your sign! If your preferred size or material isn't listed here, please contact us with the details and we can create a sign designed to your specific requirements.

Mandatory signs

Mandatory signs can also be supplied as a multiple message sign.

Choose from either the standard pre-designed multi-message signs directly below or customise your own by selecting four of the 16 pictograms further down the page.

Multiple message mandatory signs are usually 900mm x 600mm and designed to hold four circular pictograms.

Please advise which pictograms you require (including their order of appearance) when placing your order.
