INFORMATION**

## SPILL CREW DOCUMENT STORAGE HOLDER

Code:	Description	Size (mm)
SCDHPEY007	Document holder P.E. Yellow	317 x 226 x 57

### INSTALLATION USING TAPE STRIPS:

(Not included)

1. Clean the surfaces of the Document Storage Holder and the mounting surface. For best results use a thinner or methylated spirits.
2. Peel the paper backing from one side of the adhesive tape and apply to the Document Storage Holder.
3. Once all the adhesive tape has been applied to the Holder, remove the paper backing from the exposed side of the tape.
4. Fix the Document Storage Holder to the surface of where you require to store your documents and press firmly to allow the adhesive tape to bond to the surface. For best results, open the Box and apply pressure against the inside surfaces.

### INSTALLATION USING BOLTS/SCREWS

(Not included)

Using the Document Storage Box as a template, mark the holes on the mounting surface with a pencil.

1. Drill holes in the mounting surface using a drill bit that has been design to drill the material you will be mounting the holder.
2. Mount the Document Storage Box securely using bolts/screws in the drilled holes. Do not over-tighten.

**WARNING:** Do not drill any holes in your Safety Cabinets as the fire rating integrity could be compromised.

### LABEL INSTALLATION:

- Included in the Document Storage Holder is a set of labels.
- Select which label is relevant and carefully apply it to a clean dry surface in the designated area on the box.
