WAREHOUSE RANGE

GENERAL PURPOSE ABSORBENTS

General Purpose spill kits are ideal for containing and absorbing oils, coolants, degreasers, paint, weak acids or any water-based liquids.

These “all liquid” spill kits are a cost-effective solution that provides control and clean up for most applications in today’s modern workplace.

WAREHOUSE RANGE - General purpose absorbents

Spill kit type: 240 litre labelled wheelie bin with instruction holder

Absorbent capacity: 247 litres

MINING & CONSTRUCTION RANGE

HYDROCARBON ABSORBENTS

Mining & Constructions spill kits are designed for spill scenarios that are typically found both outdoors and indoors within mining and construction environments. These kits are ideal for workshops, transport depots, service stations and maintenance areas where an oil or fuel spill could occur.

The absorbents contained in these spill kits are ideal for oil or fuel spills on sealed surfaces or unsealed surfaces such as compacted earth, gravel or loose soils. These spill kits are also suitable for use in and around wet areas as they repel water and only absorb oil, fuel and other hydrocarbons.

VEHICLE AND TRANSPORT RANGE

Vehicle and Transport spill kits are portable, weather-proof bag and barrel kits that are ideal for smaller workplaces or where the spill scenario suggests the spill will be small.

Our unique, weather-proof canoe bags have been specially designed to open quickly in the event of a spill emergency, yet feature a velcro seal, roll-down top and snap-lock clips to prevent any dust or water ingress.

1. SEAL

2. ROLL

3. CLIP

GENERAL PURPOSE ABSORBENTS

The absorbents contained within these kits are ideal for containing and absorbing oils, coolants and water-based liquids. These portable bag kits can be carried in trucks, vans or any vehicle that requires a spill kit.

LAB & HEALTHCARE RANGE

HAZCHEM ABSORBENTS

Our hazchem spill kits from the Lab and Healthcare range are designed for minor spills of virtually any liquid in a laboratory or healthcare environment.

Use these kits for most industrial chemicals (both corrosive and caustic), paint, solvents, oils, coolants, degreaser, body fluids and cytotoxic drugs.

All the absorbents used within these kits are Australian-made, high quality polypropylene that is inert, fast-acting, does not degrade or chemically react, is non-allergenic and dust-free.

	1	each	Scraper	
	10	each	Fabric wipes	
	1	each	Operating instructions	A4

LAB & HEALTHCARE RANGE - Biohazard absorbents

Spill kit type: Labelled zip-locked pouch

Absorbent capacity: 2 litres

Code: SCKLHBH2R

<i>i</i>	1	each	Encapsulating powder	250g
	1	each	Sanitising liquid concentrate	50mL
	1	each	Disposal bag with tie	54cm x 23cm
	1	each	Plastic scoop / dust pan	
	1	each	Disposable apron	
	1	pair	Latex gloves	
	1	each	Face mask	
	1	each	Scraper	
	2	each	Fabric wipes	
	1	each	Operating instructions	A4

MARINE RANGE

HYDROCARBON ABSORBENTS

Our Marine spill kits are designed for the control and clean up of oil and fuel spills in and around a marine environment.

The kits are ideal for marine vessels, yacht clubs, marinas and ports.

The absorbents contained within these kits absorb oil and fuel from the water's surface and are well suited for use on containment ponds, dams, bays and in harbours.

MARINE RANGE - Oil and fuel absorbents

Spill kit type: 240 litre labelled wheelie bin with instruction holder
Absorbent capacity: 211 litres

SPILL KIT ACCESSORIES

AUDIT TAGS

Available as pack of 10 and 100

Audit seal tags readily identify when a spill kit has been accessed or used and help prevent unauthorised access

10	pack	SCAT-10	Audit tags - pack of 10
100	pack	SCAT-100	Audit tags - pack of 100

WHEELIE BIN LID COVERS

Available for 120L and 240L wheelie bins

Highly-visible water-resistant cover, helps prevent rubbish being disposed of in the spill kit

1	each	LC120YELLOW	120 litre wheelie bin lid cover yellow canvacon
1	each	LC240YELLOW	240 litre wheelie bin lid cover yellow canvacon

GALVANISED BIN LOCK

Available for 120L and 240L wheelie bins

Secure your wheelie bin spill kit to a post or a wall, prevent opening by unauthorised personnel

1	each	SCGBL	Galvanised bin lock for wheelie bin spill kits
---	------	-------	------------------------------------------------

CAUTION BARRIER TAPE

Available in packs of 10

Prevent unauthorised access to your isolated spill area.
Non-adhesive, lightweight and easy to use.

10	pack	SCTAPE5075-10	Caution barrier tape - 10 pack
----	------	---------------	--------------------------------

DISPOSAL BAGS

Available in packs of 100

Temporarily store hazardous or contaminated waste
in these clear, strong plastic disposal bags

100	pack	SCDB100	Disposal bag labelled 'Contaminated Waste' - 100 pack
-----	------	---------	-------------------------------------------------------

PVC PROTECTIVE GLOVES

Extra length for hand and forearm protection

Chemically-resistant PVC gloves provide ideal protection for
responders at a spill clean up site. Available in 12-pair packs.

12	pack	SCPVC45-12	PVC protective gloves 450mm - 12-pair pack
----	------	------------	--------------------------------------------

SPILL KIT INSTRUCTIONS

Are you prepared?

- Choose the most appropriate Spill Crew spill kit for your situation
- Acquire the correct PPE for the liquids you store and handle

Once a spill happens...

- Do not rush in – step back and think!
- Assess the liquid spilt using Material Safety Data Sheets, labels, placards and registers
- Report the spill, remain calm, speak clearly, confirm your message

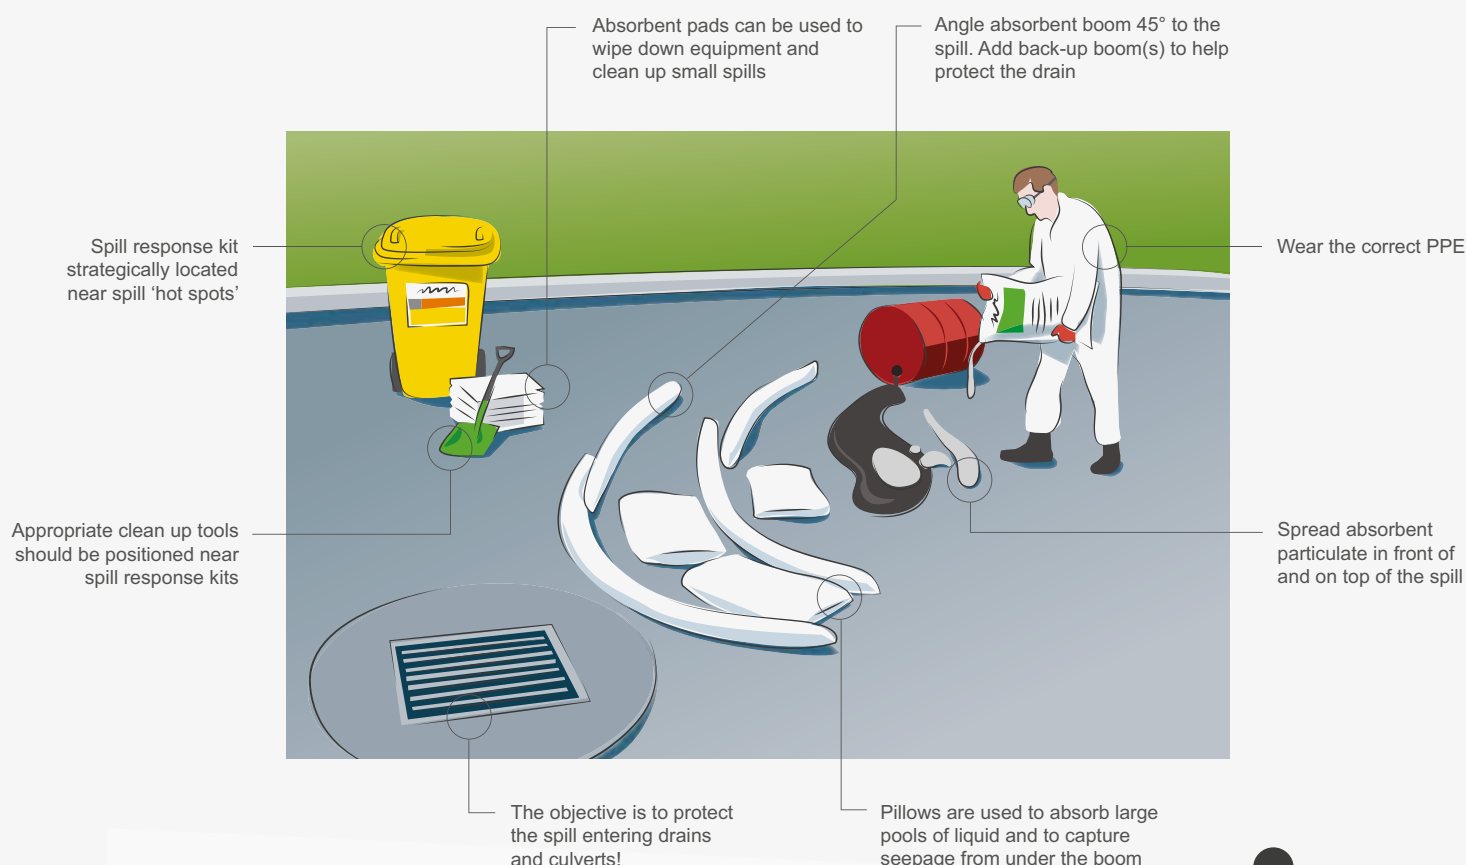

Attempt to control the spill

- Decide if you are competent to deal with the spill (if not, evacuate and secure area)
- Be aware of fumes and vapour
- Attempt to stop the source of the spill

Report and replace

- Do not replace partly used absorbents back into your spill kit
- Complete incident reports to all concerned parties
- Replace all used PPE and spill equipment
- Review and update your spill plans

Using spill kit components
